Urban Agriculture

Study Abroad in Cape Town and Stellenbosch

July 12 – August 2, 2015

Learn more at www.edabroad.uncc.edu
Email: tamarajohnson@uncc.edu

Participating students will:

• work with local organizations to understand the challenges and triumphs of food access work
• gain experience building urban gardens with limited resources
• explore the role of global, national, and local politics and policies and how these effect urban agricultural practices in the Cape Town region
• examine the relationship between urban and rural food production and consumption in the Western Cape region
• learn to critically compare the best urban agriculture practices in Charlotte and Cape Town regions
